

To whom it may concern.

I STRONGLY OPPOSE Raised House Bill 6355 An Act Concerning Risk Protection Orders or Warrants. Please do not make citizens choose between their civil liberties or mental health.

I DO SUPPORT HB 6491 An Act Concerning Nonlethal Electronic Defense Weapons. The right of self-defense applies to all devices and weapons in common use. There is no reason why "stun guns" should be illegal.

Sincerely,

Howard Larson
